Our city - Kalamata

The natural beauty of Messinia with the indented shores, sandy beaches, forested mountains and fertile valleys, coexists with significant archaeological monuments.

Our city - Kalamata

Kalamata is the capital and central port of Messinia.

Following independence from the Turks in 1821, and thanks to the exploitation of the fertile Messinian lands (producing olive oil, raisins, figs etc), it developed into a wealthy urban centre and a significant port.

It is located 238 km SW of Athens.
