

The Adventures of MythEurology Heroes League

Episode 3: Saving Poland

There comes the time when air pollution in the entire Poland is so huge and harmful that all people have problems to breathe, animals become extinct and plants are vanishing from the Earth.

**Created by students from Primary School
number 6 in Knurów, Poland**

How can I help my people? Maybe I'll call the online meeting and ask my friends - superheroes to help me.

Dratewka is thinking and thinking.

He called an urgent online meeting

I don't allow to destroy my planet!

I can't stand around!

Let me help you!

I'm sure that there are many sick people in your country.

I'll help, of course!

I'm glad to make new friends and show you my strength!

Thank you, my dear friends!

It cannot be like this!

After the successful meeting, it didn't last long for heroes to arrive. They immediately started working.

Oh, dear! I have to use my secret weapon!

Aphrodite takes her red rose, so wherever she goes, it absorbs all pollutants

I'll help you. I'll fly and chase the smog with my wings.

Meanwhile Prince Charming goes from house to house.

**Dear ladies,
I only want to help
you!**

**Don't you
see, we
don't have
anything
except the
garbage
and smog!**

**Who are
you?
What do you
want from us?**

**Please, don't
burn garbage
in the stove
no more! Use
the eco-
kindling to
warm your
houses!**

**Cloelia starts travelling around the country
in order to treat people from the effects
of inhaling polluted air.**

**Oh, poor
you!
I'll heal you!**

**Could you
help?
I can't
breathe!**

As the time has passed by, Dratewka does his best to find the location of Smog's headquarters.

Where are you hiding?

I've found you!

It has turned out that it was located in Knurów, in one of the town coal mines.

Come on, friends! Let's go to the coal mine!

When they come into the mine, they face the dark grey cloud floating into the air. It is this cruel monster - Smog.

Give up!

Oh, no!

Never! I will take over the whole Poland and move on to other countries!

The Smog runs away.

Fortunately, Aphrodite has been just waiting for this. As the Smog comes to her, she quickly directs her flower towards him. Then something unexpected happens. The flower sucks up the grey layer under which the man was hiding.

What happened? Who are you? Are you human?

**My name is Thomas
but nobody has called
me like this for ages.
I did many bad things
in my human life.
I had never taken
care of the
environment before.
I cut the whole forest
near my house and
burnt garbage .**

**I didn't recycle, save
water or energy.
My car emitted too
much exhaust gases
and I didn't care.
Until one day
I turned into one huge
air pollution -smog.**

After this confession our superheroes decided to go to Greece, where they threw Aprodite's rose to the Hades.

Cloelia has managed to cure Thomas.

Thomas becomes the most active ecologist in Poland.

**Poland has become beautiful
and clean again!**
